

Are Your Customers Asking You to Become Lean Six Sigma Certified?

EMS Consulting Group is a management consulting firm designed to create value for manufacturers, service providers, and product developers. Our clients include organizations from the medical device, biotech, aerospace, defense, and consumer products industries. Providing lean manufacturing training and lean manufacturing consulting services; we help our clients achieve lower costs, improved productivity and quality, and decreased time-to-market.

Case Study

The Problem: San Diego Electronics company had customer requirements to adopt Lean Six Sigma methods. They needed to train a number of Green Belts and Black Belts. They asked EMS Consulting to provide the training.

The Solution: EMS Consulting Group trained and certified over 40 employees over a 3 year period: approximately 30 became certified Lean Six Sigma Green Belts and 10 were certified Black Belts.

The Results: The organization improved productivity in both the front end (sales and customer service) as well as in the production areas. They were able to also significantly reduce lead-times to their customers, resulting in a surge in business despite the poor global economic conditions.

What do our clients say?

"(EMS Consulting Group Sr. Partner) Darren Dolcemascolo did a great job helping us develop and execute a plan to integrate Lean Manufacturing / Operational Excellence into our culture. He worked extremely well with Gen-Probe team, training people from multiple sites around the globe in Lean Tools and Techniques, and was instrumental in ensuring that we had the skills to move forward on our own. I would highly recommend him to an organization who needs a Lean educator and coach." - Jorgine Ellerbrock, Sr. Vice President, Operations, Gen-Probe Incorporated

"I've used EMS to implement Lean concepts at two different companies and they have always provided exceptional service. They supported my companies by conducting Lean evaluations, train-the-trainer, general employee training, implementation of 5s, and facilitating Kaizen events (both manufacturing and service). What makes them unique is that they are willing to tailor their Lean approach and material to any company or situation. It's not your typical "canned-Lean presentation" and, unlike several Lean consultants, they do not pressure for additional work. EMS will only provide the services that you need to be successful. They have never disappointed to provide results." - Kermit Stott, Sr. Vice President, Operations, Alphatec Spine
