Introduction to Lean Implementation

Description:

Course: LEA01

In this interactive learning experience, participants will learn a specific sequence of steps and initiatives comprising a lean manufacturing action plan that real managers in real companies can deploy.

Whether you have implemented some lean initiatives and want more from your program or you are not sure where to begin, this program will enable you to devise a lean manufacturing strategy and action plan for your organization.

Audience:

This course is designed for senior level operations/manufacturing executives, manufacturing and plant managers, production control managers and supervisors, materials managers and analysts, manufacturing and industrial engineers, industrial managers, operations engineers, purchasing personnel, and anyone involved in the changeover to a lean operation.

Outline

- Lean Manufacturing Overview
- Formulating a Lean Manufacturing Strategy for Your Organization
- Creating a Lean Manufacturing Culture
- Value Stream Mapping
- Re-organizing by Product Family and Value Stream
- Cells and Continuous Flow Manufacturing
- Material Flow and Pull Systems
- Using Kaizen Events for Continuous Improvement
- Kaizen Tools Overview
- Extending the Improvement to the entire Supply Chain
